INTUITIVE TASTING

WINE & EVENTS,
SOURCE OF EMOTIONS!

INTUITIVE TASTING

«Intuitive tasting».

An innovative and perceptive approach to wine.

Rediscover the path to tranquility and relaxation. Let yourself drift into the essence of wine in an atmosphere based on fun and sharing ...

Generally, an introduction to wine is made through analysing certain predefined sensory criteria. However it is also possible to appreciate a wine using a different approach ... Franck Thomas shares an intuitive tasting experience with his participants. Tasting using your feelings and sensations broadens your perceptions and allows ease of expression. It opens the doors to the heart and emotions.

Through a series of tastings learn how to experience wine by applying an innovative sensory method that opens the mind and encourages an intuitive interpretation of the wine.
