## WINE & JAZZ

# WINE & JAZZ

## Jazz, wine and vibrations. *When musicians and a sommelier come together for your enjoyment!*

And what if a rousing melody attunes itself perfectly with a dynamic and cheerful wine? And if a mature wine full of wisdom harmonises with a softer and more sensual piece?

Enjoy the liberating synergy between experienced musicians and music-loving sommeliers; discover the harmonies between musical nuances, major chords and great wines... with the intervention of an energetic and discerning trio (singer, guitarist and bassist) who perform at jazz festivals and prestigious Gala evenings on the French Riviera. This workshop promises a host of surprises...

A beautiful and original pairing of music and gustatory wonder, this event will delight all of your guests' senses.
