WINE & PERFUME

Aromas, scents, fragrances...

Let a Nose and a Sommelier get you up to speed!

«The exuberance and exotic flavours of a Gewurztraminer pair delightfully with the patchouli notes of a perfume. The floral and mineral elegance of a fine Pouilly Fumé Sauvignon Blanc combines perfectly with springtime and idyllic country scents ...»

This original workshop shows a parallel between the work of a master perfumer and that of a sommelier.

Creation, blending, distillation ... The fragrances and aromas of the wines are unveiled to highlight and awaken the sweet scents of our childhood.

Guided by a master perfumer and sommelier, discover the art of flavours and fragrances and blend your own perfume as if you were blending a wine.
